## The Universal Car

I have just received notice from the Ford Motor Company that they are beginning to manufacture cars and will soon be ready to fill orders. On account of the scarcity of labor and material they have requested their agents to procure orders and file them and all orders will be filled by the company in the order they are filed. So it will be necessary to have your order on file with your agent and he with the company in order to get your car when you want it. Agents are required to take orders on blanks furnished by the company, and purchaser is required to make a cash deposit of \$25 with the order. The prices are unchanged and will remain so for some time. Price of 5 Passenger Touring Car \$525 F. O. B. Detroit, Mich. Price of Ford truck without body \$550. Remember, you can not wait until spring to get your order in. They will be filled in the order in which they are filed.

## LEMONS MAKE SKIN WHITE SOFT CLEAR

What girl or woman hasn't heard of lemon juice to remove complexion blemishes, whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore, irritating, and should be alkali with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain clear and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin. Any drugist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

## NURSE IN BELGIUM

Somewhere in Belgium.  
November 24, 1918.

Mrs. Sarah S. Shugart,  
Terryville, Ky.

Dear Madam:  
I will now write you a letter which I have waited for some time. Our base hospital, situated in a beautiful valley of France about 35 miles from the firing line. The building consists of several two-story wooden barracks of fifty beds each, and a few tents. The personnel consists of about 45 doctors 100 nurses and 200 enlisted men, though the personnel has been increased. At times when we were not rushed with work, we were permitted to go near the front for awhile. I was at an evacuation hospital for two weeks. We were told that it was within five miles of the firing line. I know we were very close, for at times when the boys would make an attack, the doors and windows of the two-story buildings would rattle as if an earthquake were present, also the light from the guns could be plainly seen.

I also spent three weeks at another hospital near the front. We had several air raids. I have stood and watched them fight in the air, could see the shells bursting. One night a shell fell around the quarters where we were sleeping. About two months ago a mobile unit was formed from our base. On his glad I was when I heard I was going with the unit for I wanted to be at the front all the time.

We first went to Paris for our equipment. We spent 15 days in this city. We went on duty for a few days in a 3000 bed hospital, the remainder of the time was spent in getting our equipment; and in the meantime we visited the places of interest. We visited the tomb of Napoleon. I also saw the rocks which lay over his grave at St. Helena. We also went to the City of Versailles and visited the palace of the Kings of France. The beauty of the place is great.

One Sunday night at 8 p. m., we got on the train and started on our journey to Belgium. We were a happy crowd. On his glad I was when I heard I was going with the unit for I wanted to be at the front all the time. We were four nights and three days reaching our destination as the transportation is very poor in this country at present. We passed through the place called "No Man's Land." This sight is one that will never be forgotten.

There lay the guns, ammunition, helmets and gas masks in the battlefield. We could not now and then find a few wooden crosses, which marked the graves of some of the fallen soldiers. Iron bars of the railroad tracks were broken, and many of the houses were destroyed. Telephone wires were torn down. The ground full of shell holes, some of them as large as a house.

To weeping Belgians, the Lord only knows what you have suffered. Saddest sight of all were the ruined homes. Large towns with not a good building standing, the roof and part of the walls blown away by the fire. Churches were in ruins. Even trees were destroyed, limbs and the tops of them blown off. War is a terrible thing and you cannot imagine half of it until you see the destruction.

We pitched our tents on the Belgian front, lately evacuated by the Germans. We are the first American hospital to enter this part of Belgium. We have some of the operating and X-ray rooms on wheels. Our wards are tents. We only keep patients a few hours after the operation unless they are seriously wounded. We evacuate them towards the rear as soon as we can. Those who are coming. We get them from the first aid station. Generally the first treatment a patient receives after entering our hospital is an X-ray examination to locate the foreign body. Then the operation is performed, followed by the general care of surgical cases. Carrel Dakins solution is used very much with great success.

The death rate of the boys after they reach the hospital is small. Though their suffering in the trenches is terrible. I will tell you about one of our fine boys we lost a few days ago. He was brought to the hospital about four o'clock in the morning. "I lay wounded for three days with heavy firing over me, so no help could come. The only thing that kept me alive was a canteen of water, which I had with me."

The doctors performed an operation though after four more days of severe suffering, he passed away. This is the story of the suffering of one boy, while thousands have suffered and died on the battlefield alone.

## WE HAVE EVACUATED OUR PATIENTS

and are waiting further orders. I do not know where we will go to in the future. When our wounded soldiers are all sent back to America, I want to return also.

## I have been in the army fifteen

months, almost eight months abroad. I have one service stripe, which I wear on my left sleeve of my street uniform. We are given a stripe for each six months service abroad.

## May a happy Christmas come to all

with peace on earth, good will to men is my prayer.
